## About Us

As a leading supplier of cement and related products in Southern Africa, we have 18 cement plants across the continent. With the acquisition of Pronto, 3Q and Nelspruit Readymix, our footprint in the Readymix sector has grown to include 30 batching plants across South Africa, enabling us to provide quality Readymix concrete and consistent quality mortars.

Some of the iconic projects that PPC Mortars have built include the Mamelodi Shopping Centre, Tshwane Regional Mall, Sam Ntuli Mall in Katlehong, Mediclinic in Sandton, Germiston Fire Station, Chuma Mall in Diepsloot, many residential areas and refurbishments of lots of buildings in and around Johannesburg.

## Products Available

SUREMORTAR and SUREPLASTER.

### SUREMORTAR

- SUREMORTAR is a quality premix for bricklaying made by PPC from drying sand through a kiln to make it very fine and get rid of all impurities and reduces moisture content significantly then accurately mix the dry fine sand with cement to create a consistent just add water quality premix mortar
- Class I Mortar - Designed for load bearing brickwork with a final comprehensive strength of 10 MPa (28 days)
- Class II Mortar - Designed for standard brickwork with a final comprehensive strength of 5 MPa (28 days)

### SUREPLASTER

- SUREPLASTER is a quality premix for plastering made by PPC from drying sand through a kiln to make it very fine and get rid of all impurities and reduces moisture content significantly then accurately mix the dry fine sand with cement to create a consistent just add water quality premix plaster
- SUREPLASTER is specifically designed for demanding applications for both internal and external plastering with two finishes:
- Scratch finish plaster - designed for final comprehensive strength of 5 MPa (28 Days)
- Smooth finish plaster - designed for final comprehensive strength of 7 MPa (28 Days)

## Advantages of SUREMORTAR and SUREPLASTER

- Supplied in a ready to use state
- Just Add Water solution
- Convenient to apply, store and control
- Convenient, reliable and consistent product performance
- Consistent colour
- Contractors can increase productivity and save time
- Virtually immune to theft
- Vastly reduced wastage
- Mix as required

## Supply and Use

- SUREMORTAR and SUREPLASTER is available in both Bags and Bulk
  - Bags: SUREMORTAR and SUREPLASTER is available in 40 KG bags
  - Bulk: SUREMORTAR and SUREPLASTER is available in 16 ton, 21 ton and 34 ton Silos
- Delivery vehicles supply 17 tons of material per delivery which typically takes 30 minutes to offload.
- The 34 ton silo is able to accommodate two deliveries from completely empty to full.
- Silo placement:
- Customers are required to construct a 3m x 3m x 125mm slab where the silo will be placed
- The silo placement area must be level and in an uncongested area.
